## profile

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

A truly knowledge driven company, with innovation at its heart, Sarex develops intelligent power back-up solutions, engineered to be energy efficient and thus reduce the user's carbon footprint. Working further towards a cleaner, greener planet, we are branching out towards ecofriendly inexhaustible energy solutions like solar power. We see ourselves as change agents in the critically important sphere of energy, working for a better tomorrow. Sarex's commitment to "Better products through better technology" and "providing total customer satisfaction through internationally recognised quality" has transformed into business excellence. Sarex has now the largest installation base, which is growing month after month & year after year.

### SOME KEY FEATURES

- Low Maintenance & High Performance
- Excellent recovery from deep discharge.
- New Long Life Separators.
- Better Thermal Management in the system.
- Enhanced plate length & Upgraded Grid design for high power density
- High Purity Lead Oxide for Active Material..
- New Aesthetic Durable Container.
